

## NO USE FOR CHINAMEN

An Able Discussion Before the Missoula Workingmen's Union.

## REASONS FOR REJECTION

Mr. Bickford and Others Deliver Lucid and Logical Addresses on the subject of "The Day's Events in Missoula."

Special to the Standard.

MISSOULA, Aug. 1.—There was a large and enthusiastic meeting of citizens at the opera house tonight to listen to the discussion of the question of boycotting Chinese labor. The meeting was under the auspices of the Missoula Workingmen's union. Hon. W. M. Bickford was the chief speaker of the evening and he made a splendid address. The meeting was called to order by Hugh Harold, financial secretary of the union, who made a few remarks. He was followed by Joseph R. of president. Mr. Bickford's remarks were brief but to the point. J. S. Robinson, treasurer then commenced to speak, when Mr. Bickford arrived. Mr. Robinson gave way to him.

When Mr. Bickford took the floor he was greeted with applause and his remarks were frequently interrupted by an outburst of enthusiastic hand clapping. His remarks were in brief as follows: "It is always best to deliberate well before acting. This country has been advertised as the home of the free and refuge of the oppressed of all nations and unless we can find valid reasons why Chinamen should not remain here, we should keep the pledges we have publicly made. But those reasons exist, and Chinamen should be sent back whence they came. They come from the slums of China and 9 out of 10 of them were slaves or criminals and convicts. When they are not fit to live among the Chinese, they are certainly not fit to come here. They do not bring their wives and daughters. They do not become citizens, do not attend our public schools, do not originate any new enterprises, nor take part in thinking and governing; but they come to insert themselves into any lucrative position and crowd white men out. They bring their prostitutes and hawk them about for slaves until their presence has become a menace to our people. They are brought here for the most part by one of the six great Chinese companies, who pay their fare and whose slaves they are till the money is paid back with compound interest. The companies keep men to watch each man, see that he works, collect from him and acquit him of any crime with which he may be charged, so that the company will not be deprived of his labor by his imprisonment.

These companies too, let their high-binders commit murder, if necessary, in order to keep people from preventing their doing what is not lawful. The high-binders have power over the very lives of the Chinamen and consider it no harm to kill them if necessary. This organization consists of men who have learned some English and advertise to the companies that they are ready to do almost any dirty work if they were paid for it. The Chinamen are diseased and so pestilential that the health authorities are somewhat afraid to approach near enough to them to remove them to isolated places. Opium smoking was almost unknown until they came here, and now its victims are numbered by thousands in every large city. A Chinaman will work for less, live far less, do less for himself and less for God Almighty than any other creature on earth. He will never become an American citizen and has no interest in our institutions. The Chinese are a debauched race, so mean as to be unfit for Americans to look at. They are scavengers, picking up what is left, but originating nothing. They leave no money here and not even their bones to enrich the earth, if they would do it, which is doubtful. Still it is a serious question to say "Go!" The best way is to leave them entirely alone, have nothing for them and make them go elsewhere, whence the people may expect them, by the same means as are used here. We don't want them.

After the applause had ceased, Attorney M. L. Crouch was called for. He made some well-timed remarks on "The Dignity of American Labor." "You may well labor," said he, "if you have American laborers for your peers. This movement will be endorsed by the people of Missoula, who are not willing to see Americans reduced to the level of these heathens."

Mr. Crouch's remarks struck the right chord, and at their close Attorney H. C. Stiff declared the meeting adjourned.

## MISSOULA NOTES

Minor Happenings of Interest in the Garden City.

MISSOULA, Aug. 1.—John Hickey, superintendent of motive power and rolling stock of the Northern Pacific, went east in his private car "Montana" attached to No. 4 this morning.

"The Limited Mail" will be played at the opera house next Wednesday night. Rev. W. C. Hale feels very much gratified at the advancement being made by Emanuel Baptist church, of which he is pastor. The old Baptist church has been disbanded and most of the members joined Emanuel. New members are being admitted on an average of one a week. The congregation has been supplied with hymnals during the past week. Mr. Hale is to be congratulated.

Work is progressing finely on St. Francis Xavier's church. When it is completed it will be one of the most imposing structures in the city. The corner stone will be laid with appropriate services a week from to-morrow evening.

James Shewell, who died yesterday forenoon, was buried from Lucy's undertaking establishment this afternoon.

J. H. Huston and William Cheney of Flathead are in the city.

E. A. Kenney of Helena, E. W. Park of Carier and A. S. Lannan of Ashley are registered at the Missoula.

W. Klingberg is showing several ounces of coarse gold just brought up from the placer mine of the Northern Pacific, Montana and Idaho Placer Mining company on the Clearwater, Idaho.

The name of N. B. Donly was by mistake omitted from the list of incorporators of the Silver Cable Mining company given in Friday's STANDARD. Mr. Donly is one of the heaviest stockholders.

The first site in Montana was finished on Bandman's ranch tonight. The introduction of ensilage will be watched with interest by progressive farmers.

Manager A. B. Cook received word tonight that three feet of ore had been struck in the lower tunnel of Buckeye mine, near Thompson Falls.

## AN IRRIGATION COMPANY.

South Missoula Will be Supplied With Water From the Heligate.

Special to the Standard.

MISSOULA, Aug. 1.—Somewhat more than a year ago there was talk of taking water from the river above Heligate canyon and carrying it by a ditch through the canyon to irrigate the south side. The matter was apparently dropped for a while and artesian wells were discussed. Recently the ditch proposition was taken up again and today articles of incorporation of the Canyon Ditch company were filed by Hiram Knowles, E. G. Higgins, J. M. Keith, W. M. Bickford, Daniel E. Bandmann and E. A. Winstanley. The capital stock is \$50,000 divided into shares of a par value of \$10 each. It is reported that work will begin at once. This ditch is distinct from the proposed Frenchtown ditch, which would irrigate only the lower levels of the south side, while this is intended to carry water into the higher portions. With the presence of so many fine houses on the south side, that part of the city can be made very beautiful with plenty of water, by means of which trees can be grown in abundance.

George L. Ramsey, the rustling real estate and insurance agent of Bozeman, is much elated over the appearance at his house last Wednesday of a fine young boy. George hasn't been seen at the K. of P. lodge since this new acquisition.

St. Joseph, Mo., Aug. 1.—There is no truth in the reports that there is danger of the river cutting through the narrow neck and separating the river above and below here and leaving St. Joseph high and dry.

Engineer Fox, in charge of the government works here, said this morning: "There absolutely is no danger of the river cutting through. I have just made a survey of the neck of land reported to be in danger, and it is 1,600 feet wider than in 1879. The stream is cutting the bank higher up the river and has a tendency to fill all the narrowest points."

Mr. Fox further says the government appropriation of \$100,000 is ample to take care of the river here.

As he was in the act of getting into the wagon after making the delivery, the team took fright and started at a break-neck pace down Quartz street and across Missoula gulch. The horses were captured after they had run about a mile. They were uninjured but the wagon was badly used up.

IN THE COEUR D'ALENES.

Another Large Concentrator Will Be Built—Other Matters.

Special to the Standard.

WARDNER, Idaho, Aug. 1.—The Bunker Hill & Sullivan Mining company has decided to build another large concentrator at Wardner. The present concentrator has a capacity of about 400 tons. The new mill will be larger. Ore is now conveyed from the mines to the concentrator, two miles away, at the rate of a ton a minute, by means of a splendid new Bleichert tramway. The new concentrator will have Gates' crushers, an entirely new feature in the mining of this section. These crushers will handle 150 tons per hour, or eight times as much as can be crushed in the same time by the old Blake crushers. Work upon the construction of the new mill will be commenced at once, and completed by New Year's.

V. M. Clement, manager of the Bunker Hill & Sullivan, has made an offer to contribute free of charge ground suitable for a site for a miners' hospital in Wardner. He also offers to furnish 50,000 feet of lumber for the building.

Evan Morgan, well known in Butte as proprietor of the Avalon, has purchased Jack Butler's saloon business in this city. Jack Dempsey, the famous pugilist, will give three or four exhibitions in the Coeur d'Alenes about August 15. Evan Morgan has the management of the affair.

Word has been received from headquarters that the new line of the Northern Pacific in the Coeur d'Alenes will not be handed over to the operating department before August 10. It was thought that the road would be ready for traffic by August 5, but some trouble has been experienced with the new tunnel. Several times the earth in the tunnel has caved in, causing not a little trouble. A new schedule of freight rates has been adopted by the Northern Pacific for Coeur d'Alene trade from eastern points. Wallace and Wardner now have the same freight rate from St. Paul as that from St. Paul to Spokane. This cuts off the former oppressive local rates from Spokane to the Coeur d'Alenes. The dead body of Thomas Fitzgerald was found in the South Fork yesterday and buried. Fitzgerald was a miner and came from Butte, where his parents now live.
